EDUCATION

University of Pennsylvania

May 2025

B.A in Computational Cognitive Science | GPA: 3.88 | Summa Cum Laude
Minor in Marketing & Consumer Psychology (The Wharton School of Business)

Philadelphia, PA

Relevant Coursework: Human-Computer Interaction, Artificial Intelligence, UI/UX Design, Data Analytics, Java, Python, & OCaml Programming, Perception, Visual Marketing, Judgment & Decision Making, Statistics, Behavioral Economics, Social Psychology

WORK EXPERIENCE

Proscia Inc.

Philadelphia, PA

Product Operations Analyst

Mar 2025 - Present

- Plan and manage full-lifecycle product development projects across 4 cross-functional teams of engineers, designers, and customer experience, coordinating shared resources and streamlining workflows to maximize release efficiency and maintain team health
- Lead the ideation and technical implementation of innovative AI automation tools that reduced manual processes by 3 hours per sprint, directly improving engineer productivity and accelerating product velocity
- Integrate human factors studies, customer feedback, and market analysis into product requirements that drive product vision and enhance user satisfaction for 80+ enterprise clients
- Collaborate with Product leadership to define and analyze key performance metrics, tracking product success and informing strategies/roadmaps that combine user impact and business goals

Ulta Beauty

Chicago, IL

Digital Strategy Intern

Jun 2024 - Aug 2024

- Drove a 1.8% conversion increase and improved user retention by analyzing interactions and behavioral patterns across mobile and web platforms, identifying UX friction points, and translating data into actionable product improvements
- Proactively collaborated closely with Product, UX, Research, and Marketing stakeholders to develop dashboards tracking key performance indicators (KPIs) and feature metrics, streamlining operational efficiency by 40% via automating data pipelines
- Led team of 6 cross-functional interns in a Capstone Corporate Strategy project, synthesizing internal and external interviews and survey data into customer needs, pain points, and GTM recommendations, to be presented to C-suite and senior leadership

PowerNotes

Philadelphia, PA

Product Accessibility Consultant

Aug 2023 - May 2024

- Partnered with EdTech startup to advance their mission of making educational technology accessible to all learners, aligning product decisions with WCAG standards to ensure inclusive design for users with diverse abilities and tech literacy levels
- Delivered strategic recommendations through client presentations and implemented optimization solutions, resulting in a 25% improvement in accessibility compliance (A to AA conformance level) and enhanced usability for learners with disabilities

Branch Furniture

New York City, NY

Product Design Intern

Jun 2023 - Dec 2023

- Led all stages of the product development lifecycle (ideation, prototyping, implementing, testing, launch) in redesigning the official Branch Careers page using Figma and Shogun ([link](#) to post)
- Designed and executed A/B experiments using behavioral data (Google Analytics, heatmaps, session recordings) to test feature hypotheses, leading to a projected 4% increase in conversion rate and validated product improvements
- Engaged with Product Manager and engineers on Agile sprint planning, conducting site audits, user research, and competitive analyses to define success metrics and product requirements documentation (specs)
- Developed scalable design system and component library on Figma, reducing future design timelines by 50%

Wharton Neuroscience Initiative

Philadelphia, PA

Research Assistant

Aug 2023 - May 2025

- Led research on media engagement's impact on advertising sales using EEG and eye-tracking, translating complex neural data into strategic insights on ad placement for FOX Research & Analytics, leveraging Python, R, and SQL for visualization and analysis
- Designed and executed experimental studies with 150+ participants, developing custom Qualtrics surveys and ensuring accurate data collection under IRB guidelines

LEADERSHIP

Product Space @ Penn

Philadelphia, PA

Co-President & National Product Management Fellow

Jun 2024 - Dec 2024

- Elected to lead school's premier PM club of 150+ members; managed a 10-person executive board with a \$6,000 annual budget
- Designed and delivered 10 educational workshops on core PM frameworks (design thinking, GTM strategies, root cause analysis, system design) for 150+ aspiring PMs, achieving 95% average attendance and helping 30+ members secure PM internships at top tech companies
- Established partnerships with local tech start-ups and senior PMs to organize 8 guest speaker events, 10 consulting projects, 2 industry sponsorships, and 3 company visits
- Won second prize in NYU PMC's Case Competition with senior PM judges from Meta, Google, and Capital One
